

# ONE ONLINE TRAINING COURSE, AND YOU'RE PRIMED AND READY.

## Platelet PGD*prime*<sup>®</sup> is easy to implement into your platelet inventory management program.

In fact, you can start using it after taking our online training course while social distancing — no onsite classes, no trainers visiting your facility. Just one online course and you'll be ready to enjoy the benefits of PGD*prime* and 7-day dating: compliance with FDA guidance, improved platelet availability, and serious savings.

Here's what makes PGD*prime* and our online training such a dramatically better option for your platelet program.

- Self-paced, unlimited, 24/7 access from any device: computer, tablet, or smartphone.
- The intuitive, user-friendly interface makes learning a breeze.
- Six video training modules cover everything you need to know to implement PGD*prime*.
- Complete the course benchside or wherever and whenever it's convenient for you.
- Finish the course modules, pass the online quiz, and download your certificate of completion.
- All information remains accessible even after completion to refresh your learning at any time.
- Access to package inserts, SDSs, draft SOP templates, worksheet examples, and implementation tools.
- Includes helpful links to third-party validation and proficiency materials and other resources.
